GAAP comprises mandatory accounting standard issued by the Institute of Chartered Accountants of India (ICAI) and the provisions of Companies Act, 1956. These accounting policies have been consistently applied, except where newly issued accounting standard is initially adopted by the Company. Management evaluates the effect of accounting standards issued on an on-going basis and ensures they are adopted as mandatory by the ICAI.

2.1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES -**a. USE OF ESTIMATES**

The preparation of the financial statements in conformity with Accounting Standards & GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosure relating to contingent assets and liabilities as at the date of the financial statements and reported amount of Income and expenses during the period. Examples of such estimates include useful life of fixed assets, provisions for doubtful debts, income taxes, write-off of deferred revenue expenditure and intangible assets. Contingencies are recorded when it is probable that a liability will be incurred, and the amount can be reasonably estimated. Actual results could differ from those estimates. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized.

b. REVENUE RECOGNITION

Income and Expenditure are accounted for on accrual basis.

c. TANGIBLE FIXED ASSETS AND DEPRECIATION

- i) Fixed Assets are stated at their original cost of acquisition inclusive of inward freight, duties and expenditure incurred in the acquisition, construction/ installation.
- ii) Depreciation on Fixed Assets is provided on Written Down Value method and in accordance with the rates provided under the Schedule-XIV of the Companies Act, 1956.

d. IMPAIRMENT OF ASSETS

- ii) Conversion -
Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

- (ii) Accruing liability for leave encashment is accounted for on the basis of present salaries and unclaimed leaves.

h. INCOME-TAX/DEFERRED TAX

Income taxes are computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

The differences that result between the profit considered for income taxes and the profit as per the financial statements are identified, and thereafter a deferred tax asset or deferred tax liability is recorded for timing differences, namely the difference that originate in one accounting period and reverse in another, based on the tax effect of the aggregate amount being considered. The tax effect is calculated on the accumulated timing differences at the end of an accounting period, based on prevailing enacted or substantially enacted regulations. Deferred tax assets are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each balance sheet date.

i. PROVISIONS AND CONTINGENT LIABILITIES

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

The company measures EBITDA on the basis of profit/ (loss) from continuing operations.
