MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Economic scenario and Business outlook.

The year 2009-2010 was an eventful year both nationally and internationally. The Sub prime crisis, rise in the prices of oil, gold and commodities had a telling effect on the stock market and investors across the globe.

Our company is primarily involved in the business of manufacturing of PU and TPR Shoe Soles, but due to the entry of new entities in the market both in organized and unorganized sector. And inspite of having the expertise to manufacture state of the art shoe soles the company could not fully exploit and utilize its capacity.

The Indian Shoe Manufacturing Industry is highly competitive both for PU & TPR. Your Company faces stiff competition both from the international as well as domestic manufacturers. The competition is increasing with the addition of new capacities and emergence of new global players especially from China, which could affect our market shares. Increased competition might lead price reduction of the Final products, decreased sales, lower profit margins thus adversely affecting the business and Financial conditions of the Company.

3. FUTURE OUTLOOK

The future of the industry looks bright, as the Government of India has several steps for developing this Industry. The Industry has sufficiently geared itself up for a considerable growth in production over next few years as the export demands escalates.
